PROJECTS

❖ Payroll Management System

➤ [Live-Site](#) || [Client-Side](#) || [Server-Side](#)

- This is full-stack Website.
- Online Payroll is a feature-rich, role-based web application tailored for Admins and Employees. It simplifies the management of employee details, attendance tracking, task assignments, leave requests, daily updates, and salary payments using Stripe.
- Mobile, Tablet, Desktop Responsive
- Used Technology: React,TailwindCSS, React-Router-dom, Firebase-Authentication, Node-js, Express, MongoDB, Axios, Tanstack-Query, Context-API

❖ DataPulse (Business Analytics Dashboard)

➤ [Live-Site](#) || [Client-Side](#) || [Server-Side](#)

- This is full-stack Website.
- DataPulse is a comprehensive business analytics dashboard designed to manage user transactions and revenue data. It offers two panels: User and Admin. The User panel allows individuals to add, view, and manage their transactions, while the Admin panel provides more advanced features such as managing user roles, deleting users, and managing revenue.
- Mobile,Tablet,Desktop Responsive
- Used Technology: React, TailwindCSS, React-Router-dom, Firebase-Authentication, Node-js, Express, MongoDB, axios, Tanstack Query, Context-API

❖ CognitionX-Gemini-AI

➤ [Live-Site](#) || [Code](#)

- Gemini AI Assistant is a sleek, fast, and dynamic AI interface built using Next.js (App Router), MongoDB, and Tailwind CSS. It allows users to interact with an AI and stores previous conversations using a MongoDB backend.
- Mobile, Tablet, Desktop Responsive
- Used Technology: Next.Js ,TailwindCSS ,MongoDB

WORK EXPERIENCE

World Wise Scholars

Present

- Developed and deployed multiple full-stack web projects for World Wise Scholars, serving as both Full Stack Web Developer and Team Lead.
- Led a development team in building an educational consultancy website, ensuring timely delivery and seamless functionality
- Contributed to the design and implementation of dynamic platforms, including **WWS** platform **BooleanForce** and an **E-Commerce website**, optimizing performance and user experience.

Infinoid Technologies

March 2025- June 2025

- Completed a **3-month internship**, actively contributing to **2–3 full-stack projects**.
- Developed and maintained systems such as **Payroll Management System**, **Customer Management System**, **Attendance Management System (AMS)**, and **Visitor Management System (VMS)**.
- Collaborated with the development team to design and integrate secure, efficient backend APIs using **Node.js** and **Express.js**. Improved overall project structure and optimized data handling with **MongoDB** and **React.js** for smooth performance

EDUCATION:

Bachelor of Science (BSC)
Department of Computer Science Engineering.
Premier University, Chittagong

LANGUAGES:

- English (Comfortable)
- Bangla (Native)
